

CAMILO VERGARA SALAS

Data Analyst | Business Intelligence

Olivar, O'Higgins Region, Chile | camilovergarasalas.cvs@gmail.com | +56 9 9751 3084 | linkedin.com/in/camilo-evs | github.com/Chrov

PROFESSIONAL SUMMARY

Data Analyst with 4+ years of experience delivering measurable business impact: 40% faster compliance reporting, 90%+ automated document-verification accuracy, and a 10–15% sales increase on a full business modernization project. Skilled across the full data lifecycle — SQL, Python (Pandas, NumPy, scikit-learn), Power BI, and Tableau — turning raw data into KPI dashboards that drive operational, commercial, and people-analytics decisions. Full Stack background (React, Node.js, FastAPI) adds the ability to build and deploy the tools behind the analysis, not just the analysis itself.

PROFESSIONAL EXPERIENCE

Analyst Programmer | Top Partners S.A.

Dec 2021 – Jan 2026

Data Analytics & Business Intelligence

- Designed and automated SQL data pipelines (stored procedures, triggers) that significantly cut report processing time.
- Built and maintained Power BI and Tableau dashboards — both downloadable and interactive, customized to each client's needs — serving 70+ contractor companies and 100+ individual users, including reports processing 10,000+ columns with automated percentage and compliance calculations.
- Automated SQL-based verification workflows for contractor compliance documents on the SubContrataLey platform, raising verification accuracy to over 90% by standardizing formats and validation checks with the IT team — helping the platform scale to more client companies as the compliance business grew.
- Accelerated compliance reporting turnaround (Law 20.123) for client companies by approximately 40% through SQL pipeline automation and Python-based anomaly detection (Pandas, Seaborn).

HR & People Analytics

- Developed Power BI dashboards tracking turnover rate, absenteeism, headcount by area, and staffing evolution.
- Automated payroll and attendance reporting by integrating ERP and control-sheet data sources, cutting manual consolidation time for the People team.
- Built cohort analyses of employee tenure and supported recruitment reporting (time-to-hire, sourcing-channel effectiveness, probation-period retention).

INDEPENDENT PROJECTS

Feria Business Modernization — Independent Consulting (Apr – Jul 2026, Completed)

- Led an end-to-end operations and data modernization project for an artisanal-products street market (feria) business, from diagnosis to full implementation.
- Diversified supplier contacts and procurement channels and built an alternative emergency supply chain, cutting supply costs by 15–20% without compromising product quality.
- Standardized pricing, packaging, and weighing/measurement types across the full product catalog, contributing to a 10–15% increase in overall sales through better presentation and daily data-informed pricing and stock decisions.
- Built a full BI stack (Excel, Power BI, Tableau, SQL) plus a WhatsApp voice-note bot with automated transcription for daily inventory and sales updates, reducing stockouts to near zero by combining voice-to-data automation with proactive inventory monitoring.

database.cl — Data Management & Consulting Platform

- Built a full web platform with React and Firebase for automated report visualization, with AI API integration (OpenAI Assistants) to enhance large-scale data analysis.

TECHNICAL SKILLS

Top Skills: Data Analysis, Business Intelligence (BI), KPI Dashboards

Data & BI: SQL, PostgreSQL, Stored Procedures, Triggers, Power BI, Tableau, Advanced Excel, Data Modeling, KPIs, Gap Analysis, Supply Chain Analytics

Programming: Python (Pandas, NumPy, scikit-learn, Matplotlib, Seaborn), JavaScript (ES6+), PHP, C#

Web & Cloud: React.js, Node.js, FastAPI, Firebase, Vanilla JS, CSS, Bootstrap

Tools: Git, Docker, DBBeaver, Postman, Scrum, API Integration

EDUCATION & CERTIFICATIONS

- Systems Analyst — Colegio Universitario IES, Córdoba, Argentina | 2021 – 2023
- Full Stack Web Developer (Bootcamp) — soyhenry | Jul – Nov 2021
- JavaScript Certificate, Computer Programming — Coderhouse | Sep – Oct 2021
- English Certificate B1 — Universidad de Viña del Mar | Oct – Dec 2021
- Google Data Analytics Professional Certificate — Google/Coursera | Feb – May 2026
- Google AI Fundamentals Professional Certificate — Coursera | February 2026
- Certifications: Supply Chain Management and Analytics · Foundations: Data, Data, Everywhere · Share Data Through the Art of Visualization · Google Data Analytics Capstone: Complete a Case Study
